

Allegheny Bradford Corporation is proud to announce the designation of Andon Specialties - West as our exclusive Manufacturers Representative in Texas, California, Oregon and Washington.

Allegheny Bradford has been manufacturing Stainless Steel Shell & Tube Heat Exchangers, Filter Housings, Tanks and Process and Utility Skids for high purity applications for over 50 years.

Since 1985 Andon Specialties has been a trusted manufacturers representative and distributor of process flow components, instrumentation, analytical and fluid handling solutions. Headquartered in Houston, TX, Andon maintains fully staffed offices throughout the Gulf Coast, Midwest, and West Coast Regions. Andon's current product offering, together with the products and services offered by ABC as well as Topline Process Equipment and Allegheny Surface Technology offers a value added resource to our customers. Their team of knowledgeable and experienced professional account leaders will be an asset to our team and our valued customers.
